3 CD1 15 Read and listen.

There are lots of different mosaics in countries around the world. Mosaics are made of many small tiles. These tiles are different shapes and colours and are made of ceramic, glass, paper or stones, like marble.

Artists put glue on mosaic tiles and then make pictures or patterns with them. Sometimes artists glue the tiles onto cardboard first, then stick the cardboard with the mosaics onto walls, floors and roofs.

In the past, mosaics in Roman gardens and baths were made of round stones or shells. Today, artists make mosaics for places like train stations and shopping centres to make them look beautiful.

4 Answer the questions.

- 1 What type of art has many small tiles?
- 2 What can the tiles be made of?
- 3 Where were there very old mosaic floors?
- 4 Why do artists make mosaics today?

5 Where would you put a mosaic in your school?

Guess! What!

In Spain, some artists used spoons, forks and knives in mosaics.
